Description

The first active tourism map in Latvia, issued on the extremely durable synthetic fiber material Tyvek®. It is waterproof, does not fade in the sun and is not tearable, so it will ensure the longevity of using the card.

The active tourism map "Nature Trails" invites you to visit nature trails and observation towers throughout Latvia. In order for everyone to be able to choose the most suitable hiking route, information about the trails shown on the map is provided for each trail: length, level of difficulty, coverage and starting coordinates (for observation towers - coordinates only). Assessing the natural and landscape values, infrastructure and accessibility, the authors of the publication have selected 24 particularly interesting trails and provided more information about each of them. The information is supplemented by detailed terrain maps. It should be taken into account that the infrastructure of nature trails and observation towers are mostly built of wood, so it is worth inquiring about the condition and accessibility of the objects before going on the road.

The publication was created in cooperation with Mammadaba and the nature trail project dodies.lv.

Scale 1: 500,000

Scale for route maps 1: 20,000 – 1: 100,000

Size – 97 x 65 cm (folded – 12.1 x 21.7 cm)
