## Description

### Shoe Care Spray for All AKU Shoes and Boots

This specially formulated shoe care spray is recommended for the maintenance of all AKU shoes and boots. Designed to enhance water and oil resistance on suede, leather, and fabric materials, this spray is made from natural compounds that are gentle on your footwear.

The spray is easy to apply and preserves the original qualities of leathers and fabrics, without altering their appearance or texture. Plus, it's completely PFC-free, ensuring it's safe for both you and the environment.

#### What Does PFC-Free Mean?

**PFC-free** means that this product does not contain Perfluorinated Compounds (PFCs), which are synthetic chemicals often used in water-repellent treatments. PFCs are known to persist in the environment and can have harmful effects on wildlife and human health. By choosing a PFC-free product, you're opting for a safer, eco-friendly option that still delivers excellent protection for your footwear.

### **Instructions for Use:**

1. Ensure your footwear is dry and clean.
2. Spray uniformly from a distance of about 15 cm.
3. Allow the spray to dry naturally.
4. For enhanced protection, apply two light coats, allowing for drying time between each application.
5. Reapply the product periodically for continued protection.
6. Before full application, perform a pre-test on a less visible area of the footwear to check the final result after drying.

**Made in Italy.**
