Description

AKU Link GTX – Light & Precise Trekking Shoe

The **AKU Link GTX** is a lightweight, high-performance trekking shoe ideal for moderate treks and easy equipped trails. Engineered with precision in mind, its snug yet comfortable forefoot fit and special heel cushioning deliver enhanced sensitivity and shock absorption on varied terrains. Protective rubber rands at the toe and heel defend against abrasions, while a floating tongue combined with the Gore-Tex® More Seasons lining ensures both water resistance and breathability.

Key Features

- **Suede + Air 8000® Upper:** High breathability - lab tests confirm up to 11.5 times more airflow than standard materials.
- **Rubber Protection:** Full rand at toe and heel to withstand scrapes and knocks.
- **Gore-Tex® More Seasons Lining:** Durable waterproofing with optimal breathability for year-round adventures.
- **Vibram® Pepe Outsole:** Multiterrain, high-traction tread suitable for trekking, offering grip on damp, smooth surfaces.
- **Midsole & Cushioning:** Die-cut EVA + PU design for shock absorption and stability.
- **Elica Natural Stride System:** Biomechanical platform that facilitates a natural foot roll, enhancing comfort and performance.

Midsole	Die-cut EVA + PU (ITA)
Lasting Board (Stiffness)	1.5 mm Nylon + Die-cut EVA (flexible)
Footbed	Custom Fit Soft (ROU)
Weight	460 g (½ pair men's)
Men's Size Range (UK)	3 - 13

IMS2 (Internal Midsole System)

AKU's proprietary **IMS2** ensures maximum sensitivity and precision by aligning an internal midsole with a thin microporous EVA external midsole. This low-profile structure provides immediate, reliable terrain feedback, aiding stability and comfort.

Performance Fit

AKU's **Performance Fit** prioritizes accuracy and sensitivity in mountainous conditions, ensuring better toe precision. The heel cup is anatomically shaped for secure support, while the forefoot remains slightly more spacious for improved blood circulation.

Elica Natural Stride System

The **Elica** system considers specific shape and fit requirements for each footwear model. It promotes natural foot movement, supporting each phase from heel strike to push-off. Learn more at [AKU Elica Info](#).

Green Policy & Traceability

These shoes are manufactured in Europe. AKU discloses raw materials' origins, demonstrating their commitment to transparent sourcing. Components may come from multiple regions (ITA, DEU, CHN, etc.) depending on color versions or material specifics.

Size Guide

For a precise fit, please consult the [AKU Size Guide](#).
