Description

The knives from the "Linea Soccorso" are designed as modern rescue and special-purpose knives that can provide invaluable help in a wide range of situations. Milled aluminum handles with perfect handling, specific add-on functions, and outstanding craftsmanship ensure high strength, utility, and maximum reliability. Even when closed, the blade can be secured in the handle with a sliding safety catch. A 1/4" hex opening in the pommel supports use of standard bits to further enhance functionality. The [D2](#) (58-60 HRC) hawkbill blade features a corrosion-resistant finish as per MilSpec standard. The aggressive partial serration and the rounded point ensure risk-free and highly-effective pulling cuts. A belt cutter and glass breaker is additionally installed in the pommel. Liner lock mechanism. Shackle opener in the primary blade. The bit holder, the large lanyard hole, and a removable clip add to the functionality.

Type:	Pocket Knife
Total Length:	21,5
Blade Length:	8,5
Blade Thickness:	3,0
Weight:	120,0 g
Blade Material:	D2
