## Description

**21700 Li-Ion 5000 mAh rechargeable** batteries are used in electric devices that require a high-capacity power source. They increase the productivity and runtime of the product. The batteries are compatible with Armytek flashlights of Pro Max version.

- High-quality battery cell with 3.7V output voltage.
- Without protection PCB (for the flashlights with build-in PCB).
- Flat top battery "+".
- Possibility to work even under heavy loading. You will appreciate high battery discharge rate - up to 14.7A.
- At least 500 charge/discharge cycles.

Brand country - Canada.
