Description

THE MOST LONG-THROW TACTICAL FLASHLIGHT FROM ARMYTEK NOW WITH MAGNETIC CHARGER

Predator Pro is a tactical model with narrow beam of impressive throw for specialized tasks and hunting. The new generation flashlight has retained the best characteristics of the previous version, while receiving a high-tech update.

Clear central spot with minimal side spill allows to illuminate objects at a distance up to 501 meters. Ideal for use at a distance of 100-300 meters. The flashlight is supplied with a fast magnetic charger and a 18650 Li-Ion 3500 mAh battery. It can be used right out of the box and charged from any USB power source: a wall or car adapter, as well as a Powerbank.

Silicone grip, noiseless tail tactical button, compatibility with any weapon mounts, original remote switches and color filters: well thought-out design guarantees the most efficient tactical application.

WELL-THOUGHT-OUT SET OF ACCESSORIES

GRIP

- Injury-safe ergonomic silicone grip for convenient tactical hold

HOLSTER

- Heavy-duty nylon holster with several fixing options: on a belt of any width, on a Molle mount, on equipment thanks to durable steel ring

CLIP

- Steel clip with wear-resistant black titanium coating for mounting on clothes, equipment or belt

LANYARD

- Size-adjustable wrist lanyard made of heavy-duty paracord and steel carabiner for quick removal and installation on the flashlight

NEW FEATURES OF PREDATOR PRO

Maximum throw distance: special precisely calculated reflector for High Intensity LED modification, which provides 1.5 times the light range compared to a usual LED, and tempered glass with anti-reflective coating for maximum throw create clear central spot with minimal side spill at 1500 lumens brightness. Spill diameter is 9 meters at 100 meters distance.

Innovated electronics and firmware: optimized runtimes and enhanced brightness.

New tactical button: noiseless electronic button prevents disclosing location when hunting or during special operations.

Fast magnetic charger: supplied 18650 Li-Ion 3500 mAh battery is charged in 3 h 40 min.

Improved springs: new springs for better protection of the battery and driver and increased performance efficiency.

Increased reliability: special placement and fixation of the driver in the flashlight body.

Stylish body: matte anodizing, laconic style, new corporate branding.

Extended set: high capacity battery 3500 mAh and fast magnetic USB charger included. The flashlight is ready to use right out of the box.

Compatibility with magnetic remote switch: optional magnetic remote switch for momentary on (only when the button is pressed) and for constant light. Easy one-motion connection, no need to unscrew the tailcap.

ADVANTAGES OF TACTICAL FLASHLIGHTS WITH MAGNETIC CHARGER

- **Pro** Powerful electronics provides constant brightness even at a temperature of -40 °C and not fully charged battery.
- **Pro** Two types of operation: hunting and tactical. Tactical operation for quick access to maximum brightness mode and Strobe mode.
- Withstands any recoil due to improved springs and installation of the driver inside a reinforced capsule filled with protective compound.
- Standard 1 inch body is compatible with any accessories, including original magnetic remote switch and magnetic mount for quick one-motion attachment and removal.
- Two-phase electronic button retained two levels of pressing similar to mechanical switch, but became noiseless and 20 times more durable.
- Non-flat button allows to easily switch the flashlight with a palm.
- Innovative technology allows using any 18650 Li-Ion batteries with 10A discharge current and provides full protection against short circuit even in case of contact between magnetic connector and metal objects.

ORDER CONFIRMATION

- Solid body made from aircraft-grade aluminium, special matt anti-abrasive finish without rough knurling.
- Steel striking bezel with matte non-reflective black titanium coating, which prevents location disclosure, is used for additional protection of the optical system in the event of a fall and as a shock-crushing tool.
- Active real-time temperature control to prevent overheating above +58 °C and warning indication of low battery level.
- Total protection from water, dirt and dust in accordance with IP68 standard – flashlight continues to work even at 25 meters depth up to 5 hours. Withstands fallings from the 10th floor.
- Robust and water resistant magnetic connector.
- No hassle warranty 10 years.

18650 Li-Ion battery (3500 mAh) is included in the set.

For stable operation of the flashlight we recommend using branded 18650 Li-Ion batteries without PCB (unprotected) or batteries with PCB which guarantees 10A discharge current.

Brand country – Canada.
