Description

OVALO – the yogi among the carabiners: Its oval form benefits the optimal position of the carabiner along its transverse axis and thus reduces dangerous transverse loading in every situation. Additionally, the round profile prevents the build-up of sharp edges due to rope friction and allows a fluid rope management. Special feature of the OVALO ID 3-way autolock is its unique identification number [ID]. To open: lift, twist and push.

Use cases:

sports climbing, ice climbing, mountain sports, canyoning, PPE

Technical specifications

BODY Material: aluminium

Color: matte black
