Description

Powerful and compact 3 solar panel delivers a constant charge with 21 watts for battery-powered USB devices. In addition, it is also suitable for 12V (e.g. car battery) and 18V (e.g. laptop) devices. The solar panel with 3 high-quality silicon cells can automatically adjust the current and voltage using iSolar technology. The solar panel achieves maximum performance and delivers a steady current in good sunlight (charging status LED lights up red). The compact design makes handling and transport very easy. Unfold and align the panel as perpendicularly as possible to the sun. Equipped with attachment carabiner and attachment loops for attachment to e.g. B. backpack, tent or other breakpoints. The flat design made of durable Oxford nylon fabric is extremely robust, dust- and water-repellent. The adapter set enables versatile charging options for 12V and 18V devices. The inside pocket also allows you to store flat and small items.

- for battery-operated devices with USB connection
- self-sufficient and versatile charging option thanks to various adapters
- also suitable for 12V and 18V devices
- high-quality and efficient silicon cells
- compact pack size
- attachment loops and carabiners
- robust, dust- and water-repellent

- with inside pocket

Technical info:

- Weight 565 g
- 600D Oxford nylon fabric water repellent
- Closed size: 300 x 160 x 20 mm
- Open Size: 610 x 310 x 5 mm
- Output USB: 2x max 2,1A
- only suitable for devices with an internal charger, e.g. B. smartphones, tablets and power banks
- Output DC jack: 18V / 1A laptops ; 12V devices (e.g. car battery)
- DC Plug Adapter: 3.5/1.35mm; 5.5 / 2.5mm; 8.0 / 5.5 / 0.8mm
- Pay attention to the polarity of the DC connector plug: inner contact = positive (+), outer contact = negative (-)
- 3 solar panel has no integrated charger / battery or charge controller
- not suitable for direct charging of individual battery cells.
- charging time depends on device battery. For example, with a conventional smartphone with a battery of approx. 5000mAh - 7000mAh, the charging time is approx. 2 hours at 70000 lux (light conditions = full sunrays approx. 100000 lux - cloudy approx. 10000 lux)
- scope of delivery: 1x solar panel, 2x carabiner, 1x micro USB cable, 1x DC adapter set, 1x crocodile clip, 1x user manual

Brand country - Germany.
