A sleek pack with a smart volume for lighter missions, or use in urbanized areas.

1-4 Weeks

Description

A sleek pack with a smart volume for lighter missions, or use in urbanized areas.

Berghaus' MMPS Spartan 60 FA from MMPS (Multi Mission Pack System) closes the gap between the Centurio 45 and the big 100+ rucksacks.

The Front Access (FA) feature offers the option to quickly grab equipment. Loops inside on the back panel can optionally be used to attach a MMPS Radio Pad, keeping the radio nicely stowed against the inside back of the rucksack. Antenna, cables etc. can be fed through openings at the top of the rucksack body.

The main compartment of the Spartan can be accessed from above, below and from the front. At the side zips all pockets of the FMPS, MMPS and SMPS series can be zipped. On the front is a flat compartment with a removable helmet holder made of elastic net material.

- Ergonomically shaped shoulder straps.
- Chest strap with quick release.
- Padded hip belt with Bergbuckle quick release.
- Padded back with internal aluminum frame.
- Reinforced straps on the front and back.
- Height-adjustable lid with an inside and outside pocket.
- Main compartment with access from above, from the front and from below.
- Main compartment with drinking bubble holder, hose / antenna
