Glossary of Terms

- **D2 Steel:** A high-carbon, high-chromium tool steel known for excellent edge retention and durability, often used in premium knives.
- PTFE Coating: A non-stick, corrosion-resistant coating (similar to Teflon) that reduces friction and reflections.
- **G10 Handle:** A fiberglass-based laminate material, highly resistant to moisture, chemicals, and impact, offering a secure grip.
- Flipper Mechanism: A small tab on the blade's spine that allows rapid one-handed opening with a push of the finger.
