### Description

EASY Hammock Olive is a ready-to-use, simple outdoor hammock. It is 3m long and 1.4m wide. It is spacious enough to stretch out, sit, or simply sway. Of course, you can comfortably sleep in it lengthwise or Brazilian-style - diagonally. It is strong - with a static weight capacity of up to 200kg! - so there's plenty of room for another person beside you. It is very lightweight and compact - weighing only 0.3kg and taking up as much space as a 1-liter bottle, including the straps. Therefore, it is an excellent travel companion. Made of lightweight, breathable, and durable material, it comes with two 3m-long straps. All that's left is to find two trees to tie the ends of the straps, and your hammock is ready for use.

### SMART

Easy to set up and pack. The hammock is packed into a clever mesh pocket. When the hammock is hung up, it serves as a spacious storage pocket that can be suspended wherever you want using the smart carabiners.

When you're sitting in the middle of the hammock, attach the pocket next to you, and when you're lying down, move it above your head. This way, the items you store there are always within reach.
