Description

EASY Hammock is a ready-to-use, easy-to-use camping hammock.

It measures 3.3m in length of fabric and 1.4m in width. It's spacious enough to stretch out, sit, or simply sway even if you're very tall. You can comfortably sleep in it lengthwise or in the Brazilian, diagonal style. It's sturdy with a static weight capacity of up to 200kg, so there's room for another person beside you. It's lightweight and compact, weighing slightly over 0.4kg and taking up as much space as a 1-liter bottle when packed with the straps. It's an excellent travel companion. Made of lightweight, breathable, and durable material, with two 3m-long soft cords included. All you need to do is find two trees to tie the ends of the cords to, and your hammock is ready to use.

SMART

Easy to set up and pack. The hammock is packed into a clever mesh pocket. When the hammock is hung up, it serves as a spacious storage pocket that can be suspended wherever you want using the smart carabiners.

When you're sitting in the middle of the hammock, attach the pocket next to you, and when you're lying down, move it above your head. This way, the items you store there are always within reach.

PLEASANT

The EASY hammock is pleasant to the touch. The parachute nylon it is made of is soft, breathable, and water-resistant. The included straps are made of special soft polyester. They are strong and also protect the tree bark during use.
