Material	UHMWPE cord
Cord Diameter	3 mm
Strength	10 kN
Weight	4 g
Shackle Length	Approx. 9 cm
Loop Length	Approx. 23 cm
Package Contents	

- Bushmen Soft Shackle

Important Notes

- Using fastening methods other than the recommended techniques may cause the shackle to malfunction.
- Each shackle is hand-braided and slight variations may occur.

FAQ

What is a soft shackle used for? connector used to replace metal carabiners or shackles in hammock systems, outdoor setups and gear attachment points.
Why use a soft shackle instead of a carabiner? still offering high strength. This makes them ideal for ultralight travel and hammock setups where reducing weight is important.

ORDER CONFIRMATION

~~Is the Bushmen soft shackle strong enough for hammock suspension?~~ Is the Bushmen soft shackle strong enough for hammock suspension systems when used correctly.

~~Can it be used for other purposes besides hammocks?~~ Can it be used for other purposes besides hammocks? Prusik loops, connecting rope systems or hanging equipment on MOLLE/PALS webbing.

Glossary

- **UHMWPE:** Ultra-High-Molecular-Weight Polyethylene, an extremely strong synthetic fibre commonly used in high-performance ropes.
- **Soft shackle:** A rope-based connector that replaces traditional metal shackles or carabiners.
- **Whoopie Sling:** An adjustable rope suspension system commonly used for hammocks.
- **Prusik knot:** A friction knot used to create adjustable loops or stoppers on rope systems.

GPSR Safety Information

Use the product only for its intended purpose. Always inspect the cord for damage before use. Do not use if the rope shows signs of wear, fraying or structural damage.
