## Description

Whoopie slings let you perfectly level the hammock and give the desired shape.

Additionally equipped with smart endings for hanging luggage.

This symbol "Pro" informs that our whoopie slings, besides their primary function, offer something unique. The main function of the whoopie slings is to smoothly adjust the tension level of a hammock. Whoopie slings, along with the EASY Hammock Suspension, are among the most convenient systems for deploying and adjusting the suspension of hammocks. They don't require knowledge of knots.

Short, so-called fixed loops, are attached to the loops at the ends of the hammock. Long loops, the so-called tensioning loops are usually attached to carabiners of straps (tree huggers) that are wrapped around the trees. If the free ends are short, we can hook them next to the whoopie cords of the slings. In that way, we are creating two convenient loops where we can hang our luggage. In this way, you can hang-on luggage up to 10 kg. If the free ends are long enough, we can create a so-called baby hammock, i.e. a hanging place for a backpack. This solution has an advantage that the backpack is always at hand.

Pitching is quite easy. We put the free ends of Whoopie Slings & through the backpack handle on one side and the backpack harness on the other side. Hook on the end back to the cord. It will create a loop and tighten the cord by pulling the hook so that the backpack hangs above the ground. The hooks are shaped in such a way that they keep the backpack in the right position, weighing up to 20 kg. A maximum of 20 kg is possible due to the

fact that the weight of the backpack is divided into two hooks and two cords. Each hook is loaded to the permissible level of 5 kg Remember! Leave some space between the hammock and the backpack so that after you lie down on the hammock you will be comfortable and the backpack will not pinch.

### **Specification:**

- The total length of 300 cm
- Total adjustment range 90cm-300cm
- Total of weight 30g
- Cord 3mm UHMWPE
- Maximum hook load - 5 kg
- The maximum static load of whoopie slings 700kg (total)

Brand country - Poland.
