Use & Positioning

The Boker Plus Kwaiken Grip Auto is designed for users who want a **fast-deploying automatic knife** with refined styling. Ideal for everyday carry, professional use, and tactical environments where speed, control and reliability matter.

Warnings & Safety Information

- **Cut hazard:** Sharp blades can cause serious injuries. Always cut away from your body.
- **Risk of slipping:** Maintain a stable grip and controlled cutting technique.
- **Drop hazard:** Do not leave the knife unsecured or near edges.
- **Dull blades:** Increase injury risk due to higher force requirements. Sharpen regularly.

Frequently Asked Questions

Automatic knives are designed to be used as a pry bar, screwdriver or lever. Always check your national and regional regulations before carrying or using this knife.

With a D2 steel blade, high wear resistance and solid corrosion resistance, making it a popular choice for hard-use EDC knives. No, the pocket is designed for right-hand, tip-up carry.

Glossary

- **Automatic knife** - A knife where the blade opens via a spring mechanism activated by a button.
- **D2 steel** - A high-carbon tool steel known for durability and edge retention.
- **Button lock** - A locking mechanism operated by a push button, offering safe and simple operation.
- **Kwaiken** - A minimalist knife design style popularized by Lucas Burnley.
