Titanium Bonded is not painted or plated, but an application of a unique formulation of titanium and chromium nitride to the surface of cutting blades that actually penetrates and treats the metal to create a permanent bond. The patented Titanium Bonding process provides the following benefits; corrosion resistance, adhesive resistance, and the process itself make the stainless steel 3x harder than untreated stainless providing a blade that stays sharper longer.

Since 1876, Camillus Cutlery has been supplying the world with reliable, innovative and quality-made knives that have survived the true test of time. As one of the oldest knife manufacturers, Camillus Cutlery has always answered the call for quality and will continue to do so with our hunting, fishing, sporting and tactical knives.

Camillus products are made of Carbonitride Titanium™ cutlery-grade steel
