Description

VX Series 10x42mm HD Full Size Anti Fog and Waterproof Binoculars VX-042

- Long Distance - With a 10x total magnification and 42 mm objective lens, these long-distance binoculars were engineered to provide incredible clarity and a large field of view.
- Waterproof and Weather Resistant - A result of quality engineering, the ergonomic design of these full-size, fog proof, and waterproof binoculars allow for optimized endurance as well as performance. The nitrogen filled interior provides a IPX6 "Watertight" water resistance rating, allowing no ingress of water inside the binoculars from jetting water from any direction, allowing them to retain functionality in virtually any weather condition.
- Premium Clarity - The VX-042 possesses fully multi-coated lenses to minimize light reflection as well as fully multi-coated dielectric BAK-4 prisms to provide high quality images. Phase correcting coatings are applied to these prisms to ensure accurate color balance and fidelity while also producing more color and detail in backlit or silhouetted objects of focus.
- Binocular Accessories - Binocular accessories to increase portability and ease of use are included in purchase. Accessories included with the VX-042 are a binocular case, case strap, binocular neck strap, protective lens cap, and microfiber cleaning cloth.

Carson Optics

Carson Optical was founded in 1990 by Richard Cameron. With over 29 years experience in the optics industry, Carson has dedicated a team of engineers whose sole mission is to improve the customer experience. The company's product line has grown exponentially to encompass a broader range of products and accessories that reflect the needs of its client base. Carson's commitment to excellence is the foundation of the company. As the number one manufacturer of US magnifiers and one of the leading suppliers of binoculars, Carson's entire product line consistently boasts first-rate quality at affordable price points.
