Description

Casio G-SHOCK watch is one of the original G-SHOCK series watches.

Technical Specifications - CASIO GBA-900-1AER

Bluetooth® Smart

The watch is equipped with energy-saving Bluetooth® technology, which offers power-saving data transfer at the push of a button. The watch can connect to a smartphone wirelessly via Bluetooth®, enabling access to a wide range of useful functions.

Smartphone time

Local time will automatically be adjusted whenever the watch is connected with a smartphone.

Super-Auto LED Light

If the ambient light fades, a turn of your wrist illuminates the watch display particularly brightly and in color.

Shock-resistant

Shock-resistant construction protects

Steptracker

against impact and vibration.
The watch has a built-in 3-axis accelerometer that counts the steps you take and indicates the numbers on the display.

Lifelog Function

Based on the number of steps, the watch calculates a calculatory calorie consumption and the distance covered.

Second time zone

A second location time can be set and called up. Ideal if you frequently make overseas calls.

Stopwatch function - 1/100 sec. - 24 hours

Elapsed time, split time and final time are measured with 1/100-sec accuracy. The watch can measure times of up to 24 hours.

Lap memory 50

Measured total, lap and split times can be stored in a memory with the date and can be displayed again later. A data set consists of: date, total, lap and split times. The memory has enough space for up to 50 data sets.

5 Timer - 1/1 Sec. - 60 Min. (with automatic repeat)

The count-down timer gives a signal by reaching the set time. The measuring capacity reaches up to 60 minutes. The timer can count back automatically again from the preset time. Five of these countdown alarms can be set independently.

5 daily alarms

The daily alarm reminds you about recurring events with an acoustic signal at the time you have set. This model has 5 independent alarms for flexible reminders of important appointments.

Button tones on/off

The button tones for using the mode button can be turned off. This means that the watch no longer beeps when switching from one function to another. Preset alarm or countdown timers remain active when the button tones are deactivated.

Hand Moving Function

With a push of a button, hands are moving and permit a free visibility of functions like stopwatch or date. Misplaced your smartphone? All it takes is the push of a button on your watch and the smartphone sounds an alarm.

Phone Finder
