## Description

If you're looking for a budget-friendly yet high-performing folding hunter, look no further than the Double Safe Hunter, modeled after Cold Steel®'s extremely popular old-school Voyager®. Its wide, clip-point blade is 3.5 in. (approx. 9 cm) in length and is made of 8Cr13MoV steel, tempered to 57-58 Rockwell hardness. No matter the job, you can be confident you have the right knife on hand, with a blade small enough for intricate cutting tasks, yet big enough to skin anything from a mouse to a moose.

A dream to use for any length of time, its glass-filled nylon (GFN) handle is thin, ergonomically pleasing and features a steel pocket clip. It is available with three handle variations: blaze orange (CS-23JB), OD green (CS-23JC) and a distinctive camouflage styled version (CS-23JE).

As always, Cold Steel® had your fingers in mind when designing the Double Safe. Its state-of-the-art rocker lock features a secondary safety mechanism that, when engaged, is enormously resistant to shock and impact.

### **8Cr13MoV Stainless Steel**

Possessing very similar properties to AUS 8A, 8Cr13MoV is a reliable steel for working knives. This high carbon stainless steel has proven itself to be tough and corrosion-resistant in Cold Steel®'s own tests. Like AUS 8A,
