## ORDER CONFIRMATION

---

Beyond medical devices, CVN Medical Solutions also provides certified **TCCC** and **TECC** training programs. The company operates under strict quality standards including **ISO 9001, ISO 14001, ISO 13485 and AQAP**, supporting high reliability and regulatory compliance.

### FAQ

**What is the CVN4 bandage used for?** Applying direct pressure to wounds in emergency situations.

**Is the bandage sterile?** Sterile and has a shelf life of up to 10 years from the manufacturing date.

**Can it be used in first aid kits?** Yes, it is used in first aid kits, including tactical and professional emergency kits.

**Does the bandage stick to the wound?** No, it is designed to prevent sticking and allows safe removal.

### Glossary

- **Compression bandage:** A bandage designed to apply pressure to control bleeding.
- **Non-adherent pad:** A wound dressing that does not stick to the wound surface.
- **CE marking:** Certification indicating compliance with European medical device regulations.
- **TCCC / TECC:** Tactical medical care guidelines for emergency and prehospital treatment.

### Safety Information

Use only for intended medical purposes. Improper use may result in ineffective treatment or injury. Training in first aid or trauma care is recommended.
