Description

CVN Packing Gauze

CVN Packing Gauze is a sterile, 6-ply medical gauze designed for effective bleeding control during emergency wound management. Compact, durable, and easy to pack into deep wound channels, it is intended for use together with pressure dressings or as a primary wound-packing solution in both civilian and tactical medical environments. With a long 10-year shelf life, it is ideal for trauma kits, IFAKs, and field medical responders.

Aim of the Product

The gauze is engineered to provide rapid and reliable wound packing in life-threatening bleeding scenarios. Its 6-ply cotton construction ensures optimal absorption and structural stability, supporting effective pressure application during hemorrhage control.

Audience

- First responders and paramedics
- Military medics and tactical teams
- Police and security units
- Outdoor professionals, rescue services and survivalists

Product Use

The gauze is intended to be packed directly into wound cavities to control moderate to severe bleeding. Once inserted, a pressure dressing should be applied to maintain sustained compression. Its compact form ensures easy storage in individual kits, pockets, or medical pouches.

Specifications & Technical Details

- **Dimensions (unrolled):** 11.43 cm × 3.75 m
- **Packed size:** 7 cm × 5 cm × 1 cm
- **Weight:** 73 g
- **Ply:** 6-ply
- **Material:** 100% cotton
- **Color:** White
- **Sterility:** Sterile
- **Shelf Life:** 10 years from manufacturing date
- **Product Code:** H5000-4020P
- **UDI-DI:** 06971519616607
- **NSN:** 6510-58-002-0886
- **Certification:** CE-marked medical device

Other Useful Information

Thanks to its long shelf life and compact packaging, CVN Packing Gauze is suitable for large-scale procurement, medical kits, law-enforcement units, and tactical deployments. The material maintains integrity under pressure and integrates seamlessly with standard emergency medical protocols.

Glossary of Terms

- **Wound Packing:** Technique of placing gauze into deep wounds to control severe bleeding.
- **Ply:** The number of layers in gauze, affecting thickness and absorption.
- **CE Mark:** Indicates compliance with EU safety and health standards for medical devices.
- **NSN:** NATO Stock Number used for standardized international procurement.
