Description

Direct Action JTAC Polish Large Patch, SUBDUED Flag

The Direct Action JTAC Polish Large Patch is part of the Operator Role Identification System, specifically designed for JTAC (Joint Terminal Attack Controller) identification. This patch features the subdued colors of the Polish flag, making it ideal for tactical applications. Crafted with IR technology, this patch is highly resistant to abrasions, temperature changes, and sunlight, ensuring durability in demanding conditions.

Features

- High-quality construction with infrared (IR) technology for enhanced visibility in tactical environments
- Subdued Polish flag colors for low-profile, professional appearance
- Durable and resistant to abrasions, UV light, and temperature variations
