Description

Our inner belt works as a stabilizer for the MUSTANG and MOSQUITO belts. As it attaches to the inner loop panels of those belts, it prevents ride-up during dynamic movement - or when drawing a pistol from a holster. With this belt set-up there's no need to use suspenders or a drop leg panel in order to achieve a secure pistol draw.

Specs:

- Made out of proprietary laminate and Velcro hook
- Flat, featherlight accessory to keep your pants & equipment belt where you'd expect them to be
- Thin profile of the trouser belt effectively eliminates well known "buckle over buckle" discomfort

Raw Material	Cordura®
Weight [lb]	0.16
Weight [g]	72
