## ORDER CONFIRMATION

Country of Origin	USA
-------------------	-----

### About the Brand

**Diamond Machining Technology (DMT)** is a pioneer and global leader in diamond sharpening technology. Established in the USA, DMT products are known for **precision, durability, and consistency** across professional, culinary, and industrial applications. Their **monocrystalline diamond surface** provides faster sharpening and longer tool life compared to conventional stones. Trusted by craftsmen, chefs, and professionals worldwide, DMT continues to set the standard in modern sharpening innovation.

### Glossary of Terms

- **Monocrystalline Diamond:** A single-crystal diamond abrasive offering uniform grit size and exceptional durability.
- **Grit:** Measurement of abrasive coarseness; lower grit removes material faster, higher grit polishes edges.
- **NRR:** Noise Reduction Rating; not applicable to this product but standard for DMT labeling of technical performance.
