Description

The Duracell Zoom Aluminium 700 LM flashlight is a reliable lighting tool with impressive light brightness. Its durable casing is made of durable aerospace-grade aluminum, which makes it extremely light and resistant to damage.

Thanks to the thoughtful design, an ergonomic on/off button has been placed on the back of the housing, which guarantees comfort of use.

This perfectly designed flashlight generates a luminous flux of 700 lumens. This allows you to enjoy a light range of up to 120 meters, which makes it ideal for both everyday use and outdoor activities. An additional advantage is the Zoom function, which allows you to adjust the light flux, adapting it to your individual needs.

You do not have to worry about the operation of the flashlight in difficult weather conditions. It has IPX4 water resistance, which means that it can withstand even the most extreme weather conditions. It is also resistant to drops from a height of 1 meter, which ensures its durability and reliability in any situation.

The continuous operation time of the flashlight is from 2 to 20 hours, which allows for long-term use without the need for frequent charging. There are three light modes: Normal (Focused), Eco and Pulse, which allows you to adjust the lighting to different situations.

Comes with a Duracell Zoom Aluminum 700LM flashlight and four AAA batteries, so you have everything you need for immediate use. Its compact dimensions of 14 x 4 cm make it easy to fit in a pocket, backpack or bag.

The Duracell Zoom Aluminum 700 LM flashlight combines durability, functionality and craftsmanship to illuminate any place professionally and
