local/regional/national/international regulations.

Care and Maintenance

- Use only on unloaded firearms and disassembled parts.
- Store the aerosol upright, in a cool, ventilated place.
- Do not store near open flames, sparks or hot surfaces.
- Wash hands thoroughly after use.
- Avoid release to the environment and do not allow product to reach waterways.

Other Useful Information

SchleTek Carbon Cleaner is particularly useful for shooters who regularly fire black powder or high round-count nitro loads, where ordinary cleaners are no longer sufficient. By softening baked-on deposits, it helps restore barrel cleanliness and saves considerable manual effort.

Glossary of Terms

- **Carbon residue:** Burnt powder deposits that accumulate inside firearm barrels and components.
- **Black powder:** Traditional propellant used in historical firearms and some sport disciplines.
- **Nitro powder:** Modern smokeless powder used in contemporary ammunition.
- **CLP/GHS:** Classification, Labelling and Packaging / Globally Harmonised System for hazardous chemicals.
- **Flammable aerosol:** Pressurised product capable of forming flammable mixtures with air.

Downloads, Manuals, Certificates

- CLP and safety information as listed above.
- Further documents available on request from the manufacturer or distributor.
