Description

Our popular Extremities X-Dry winter walking and backpacking cap.

The warm and waterproof Ice Cap is neatly designed to provide a closer fit around the ears and neck to keep out wintry draughts and there are removable, adjustable chin cords to keep the cap firmly in place in windy conditions. In rainy conditions the wired peak keeps the wet from your eyes and the handy press stud allows it to be fastened up and out of the way if not needed. A cosy fleece lining provides plenty of warmth for winter conditions. The cap has a waterproof and breathable insert to provide great protection in bad weather.

A cap that's an essential for your winter pack.

Specification

- Extremities performance type: Windproof, Waterproof
- X-Dry Extremities Provides Waterproof and Breathable Comfort
- Fleece Lining Provides Excellent Warmth and Comfort in Winter
