Description

Flx wtd the Swedish quality steel Elmax. Elmax is a high-alloy powder steel with high corrosion resistance and high wear resistance.

Your X-knife is the strongest, sharpest and safest stainless steel knife in production. If your life is in danger, you can always rely on your X-knife. It is designed to withstand all the stresses applied by the human hand, which means that it is virtually indestructible. It assumes, however, that you are careful with the knife and that it is used as intended, namely as a sharp precision tool.

The basis of the X-knife's strength lies in the well-thought-out construction in which break zones have been eliminated. Together with the hand-shaped convex edge, the X-knife is a concept that beats everything else in the world in terms of safety and comfort.

In our usual way, we have put a lot of energy into designing a safe knife sheath, which is actually where the knife will spend most of its time. The design of the sheath determines the access to the knife, and here we have really put all our efforts in order to get a safe sheath that allows easy access to the knife. The sheath has both a transport lock (the folding bracket with a strap) and a working safety detail that allows the knife to be in place until you decide to use it. It is a bit a belt-and-braces approach, but we like putting safety first - a lost knife is of no use. The transport lock will therefore allow the knife to be fastened tip-up or tip-

down on the body or on your equipment without any risk.

Overall: We won't be surprised if people starts recognizing the X-knife as the world's most thoroughly thought-out knife concept where no corner has been cut, nothing spared, to bring out the very best from an ergonomic and safety point of view. The knife is sharp and strong, the sheath is smart and safe. So, what more can you ask for? Well, we've created the knife to be really good looking too!

Steel	Elmax
Hardness (HRC)	61-62
Edge	Convex
Tang	Full tang
Handle material	thermorun
Sheath	Zytel
Weight, knife only (g)	222
Blade length (mm)	102
Blade thickness (mm)	5
Total length (mm)	220
Coating	Satin or black coated finish

Brand country - Sweden.
