Description

Fallkniven P3Gcfc Folding Knife (Carbon Fiber), 3G Steel

Inspired by the world-famous knifemaker R.W. Loveless, the Fallkniven P3Gcfc is a symbiosis between advanced technology, genuine handicraft, and timeless design - a knife for the modern hunter. Now available with a handle in hi-tech carbon fiber for a sleek and lightweight finish.

A lot has happened behind the scenes in the development of this folding knife, but the aim has always been the same - to produce a folding knife with a sensible size and attractive design. Drawing from years of experience in selling folding knives, Fallkniven created the P folder to be practical, attractive, and reliable. The blade is crafted from laminated powder steel, using the renowned 3G stainless steel for exceptional edge retention and durability.

The P folder's open-back handle design makes it easy to clean, making it particularly suitable for hunting purposes. It comes with a durable black Cordura sheath for secure belt carry.
