Description

Fallkniven PCx Folder

Introducing the new and improved Fallkniven PCx, an evolution of the popular PC folding knife. The PCx now features a robust removable pocket clip for safe, quick, and comfortable access. Additionally, a thumb stud has been added, allowing for effortless one-hand opening.

The PCx remains a lightweight, modern folding knife with exceptional features. Its blade is crafted from laminated cobalt special steel (Lam. CoS), renowned for its extraordinary edge retention. The blade is secured using a liner lock, one of the strongest and safest locking mechanisms available.

The handle is made from fiberglass-reinforced Grilon, internally lined with stainless steel for superior strength. Despite its durability, the PCx weighs just 70 grams (2.5 oz), making it an ideal EDC (Everyday Carry) knife. The knife is also easy to clean with soap and hot water, ensuring hygiene and low maintenance.

Designed for convenience, the pivot is fitted with greaseless Teflon bearings and can be adjusted with a Torx T10 screwdriver. The PCx builds on the legacy of the original P model, offering advanced materials and cutting-edge knife-making technology.
