Description

Fallkniven U1 Folding Knife, Elmax Steel

The Fallkniven U1 is a refined folding knife that blends advanced Elmax steel technology with a timeless folding knife design from over a century ago. Featuring a handle crafted from Elforyn, an exquisite ivory imitation material, this knife offers both elegance and durability.

The U1 lacks a blade lock, relying on a traditional spring steel key to secure the blade. This time-tested mechanism has been used for more than 100 years, ensuring a steady blade without locking it. Due to this design, the U1 is often classified as a pocket knife, making it permissible for carry in public spaces in many countries, with exceptions like restaurants, sports arenas, and school grounds.

The blade, crafted from Swedish Elmax powder steel, provides extraordinary edge retention. Its symmetrical design, featuring nail nicks on both sides of the blade, makes it equally suitable for left-handed and right-handed users. The knife comes with a sleek black Cordura sheath for safe and convenient storage.

Additional Information

- **Blade steel:** Elmax
