Description

Fiskars Folding Spade – Compact Outdoor Tool with Hoe Function

The **Fiskars Folding Spade** is a compact and versatile digging tool designed for **camping, outdoor use and light entrenching tasks**. Combining the functionality of a **spade and hoe** in one tool, it offers flexibility in the field while remaining easy to transport and store.

With its foldable construction and included **canvas sheath**, the tool is well suited for carrying in a backpack, vehicle or outdoor kit.

Designed for Practical Outdoor Use

This folding spade is built for users who need a reliable and compact tool for basic digging and ground work. It is suitable for outdoor enthusiasts, campers, and anyone who requires a lightweight solution for occasional use in natural environments.

- **2-in-1 functionality:** spade and hoe configuration
- **Compact foldable design** for easy transport
- **Quick deployment** with locking mechanism
- **Canvas sheath included** for safe storage

Materials and Construction

The Fiskars folding spade is constructed using a combination of durable materials to ensure strength and usability while keeping the weight manageable.

- **Blade:** Hardened boron steel
- **Handle structure:** Hardened aluminium
- **Grip:** Durable plastic

This material combination provides good resistance to wear and corrosion for typical outdoor use.

How to Use

Unfold the tool until the locking mechanism secures the blade in position. Depending on the task, the spade can be used in two configurations:

- **Spade position:** for digging and moving soil
- **Hoe position:** for loosening ground and clearing small areas

After use, clean off dirt and moisture, fold the tool and store it in the included sheath.

Recommendations

- Check the locking mechanism before use
- Clean and dry after use to prevent corrosion
- Avoid heavy prying or use on hard materials (e.g. rocks)
- Store in a dry environment

Technical Specifications

Type	Folding shovel / spade
Function	Spade and hoe
Length (open)	590 mm
Length (folded)	249 mm
Weight	1.04 kg
Blade material	Steel
Handle material	Plastic / aluminium structure
