Usage & Training

The Chiroptera is designed for users trained in **Karambit manipulation**. Its unique curvature and ergonomic geometry demand muscle memory and precision handling. Ideal for professional use in **defensive tactics, martial arts, and tactical environments**.

Glossary

- **Karambit**: Curved-blade knife originating from Southeast Asia, used for control, slicing, and retention.
- **N690Co**: Austrian stainless steel enriched with cobalt, providing toughness and edge retention.
- **Top Shield® Coating**: Advanced anti-corrosion finish with matte tactical appearance.
- **G10**: Composite fiberglass laminate offering excellent grip and structural strength.
- **Back Ring**: Traditional Karambit feature allowing rotation and retention during combat applications.
