1-4 Weeks

Model	FKMD Spear Tech
Designer	Antonio Di Gennaro
Blade Steel	N690Co stainless steel
Blade Hardness	58-60 HRC
Blade Coating	Black Idroglider® (non-reflective)
Blade Length	150 mm / 5.91"
Total Length	280 mm / 11.02"
Blade Thickness	6.0 mm / 0.24"
Handle	Black G10 with relief milling
Sheath	Kydex® (ambidextrous retention)
Weight	305 g / 10.76 oz
Country of Origin	Italy

Intended Applications

Online store WWW.LYNXGEAR.LV

Company: SIA LATLYNX

Special forces and military close-quarters operations

Preaching and emergency entry tasks

Field utility: cutting, chopping, batoning and survival use

- Maritime operations - G10s, grip and coating chosen for wet environments

Legal address: Baznīcas iela 8, 1

LV-5101, LATVIJA

Bank Account: LV87UNLA0050021387494

Care & Maintenance

- Rinse saltwater-exposed knives promptly and dry thoroughly to maximise corrosion resistance.
- Use light oil on pivot / exposed metal parts; avoid aggressive cleaners that remove protective coating.
- Sharpen with appropriate stones or diamond tools—maintain original bevel geometry for best performance.

Glossary

- **N690Co**: A premium nickel/cobalt alloy stainless steel offering strong edge retention, toughness and corrosion resistance – widely used in professional blades.
- **Spear-point**: Blade tip geometry with symmetrical edges meeting at a central point—optimised for penetration and balanced thrust control.
- **Black Idroglider®**: PTFE-based protective coating used to reduce friction, resist corrosion and minimise surface reflection.
- **G10**: A high-pressure fiberglass laminate known for durability, low weight and excellent grip properties even when wet.
- **Kydex®**: Thermoformed sheath material with adjustable retention and excellent dimensional stability for tactical carry.
