Wrist-mounted GPS navigator
with smart notifications

Description

Garmin Foretrex 901 Ballistic Edition Wrist-Mounted GPS Navigator

Garmin Foretrex 901 Ballistic Edition is a purpose-built wrist-mounted GPS navigator designed for professional navigation and long-range ballistic calculations. Featuring an easy-to-read monochromatic display, multi-band GNSS positioning and integrated **Applied Ballistics® software**, it delivers reliable navigation and precision shooting support in demanding environments.

Integrated Applied Ballistics Solver

The Foretrex 901 includes onboard **Applied Ballistics** software, allowing precise long-range shot calculations directly on the device. Ballistic profiles can be managed wirelessly using a compatible smartphone through the **AB Synapse™ - Garmin app**, making updates and adjustments fast and secure.

Advanced Tactical Features

Designed for tactical and professional use, the device includes **stealth mode** to disable wireless connectivity and GPS data storage. In critical situations, the dedicated **kill switch** instantly wipes device memory.

ORDER CONFIRMATION

Jumpmaster mode supports high-altitude release calculations according to military guidelines.

Rugged and Mission-Ready

The Foretrex 901 is tested to **MIL-STD-810** standards and rated **IPX7** for water resistance. It is built to withstand sand, dust, vibration, shock, extreme temperatures, altitude and humidity, making it suitable for harsh operational conditions.

Long Battery Life with Field-Replaceable Power

Powered by two standard **AAA batteries** (not included), the device delivers up to **100 hours** in navigation mode and up to **1000 hours** in expedition mode. Field-replaceable batteries ensure extended operation without reliance on charging infrastructure.

Navigation Sensors and Connectivity

Multi-band GNSS support (GPS, GLONASS, Galileo) provides improved position accuracy. Integrated sensors include a 3-axis accelerometer, 3-axis tilt-compensated compass and barometric altimeter. When paired with a compatible smartphone, the device supports smart notifications and integration with the Garmin Explore™ ecosystem.

Key Features

- Integrated Applied Ballistics® solver
- Multi-band GNSS (GPS, GLONASS, Galileo)
- Monochromatic MIP display for excellent readability
- Stealth mode and physical kill switch
- MIL-STD-810 tested durability
- IPX7 water resistance
- Up to 1000 hours battery life (expedition mode)
- Field-replaceable AAA battery power
- Jumpmaster and tactical navigation modes

Technical Specifications

Display	2.2" monochrome MIP, 320 × 240 px
Dimensions	2.9 × 1.9 × 0.9 in
Weight	3.8 oz (with batteries)
Water Rating	IPX7
Standards	MIL-STD-810 (thermal, shock, water)
Battery Type	2 × AAA (not included)
Battery Life	Up to 100 h (GPS), up to 1000 h (Expedition)
Waypoints	500
Tracks	100

FAQ

What is the Applied Ballistics software used for? ns based on ballistic profiles, environmental data and weapon parameters.

Can the Foretrex 901 operate without a smartphone? ork independently; a smartphone is only required for profile management and notifications.

What does stealth mode do? less connectivity and stops storing or sharing GPS location data.

Is satellite communication included? ring with a compatible Garmin inReach® device and an active subscription.

Glossary

- **Applied Ballistics:** Advanced ballistic calculation software used for precision shooting
- **Multi-band GNSS:** Use of multiple satellite frequency bands for improved positioning accuracy
- **Kill Switch:** Physical control that instantly wipes device memory
- **MIL-STD-810:** Military standard for environmental durability testing
