Why is hearing protection so important?

High noise levels aren't just bad for our hearing, they can have a negative impact on our concentration, efficiency, and overall wellbeing. The longer we remain exposed to excessive noise, the faster we feel tired. This can cause fatigue, headaches, and dizziness, with further health complications also possible.

In accordance with art. 38 of the Act on Consumer Rights, the product mentioned above is not returnable for hygienic reasons if the packaging was opened after delivery and the product was used.
