firearms.

### Other Useful Information

The three front pockets each have a distinct internal layout, offering versatile organization tailored to ammunition, range tools, maintenance kits or small personal items. By using VIS-compatible inserts such as holsters, magazine inserts, pouches or document holders, the user can customise the internal configuration to specific firearms or mission needs. Backpack-style straps improve mobility during longer walks to the shooting range or when carrying other equipment. When not needed, these straps hide discreetly into a specialised compartment, providing a clean profile suitable for vehicle travel or storage.

### Glossary of Terms

- **Cordura®:** A highly durable nylon fabric widely used in military and tactical equipment due to its abrasion and tear resistance.
- **VIS (Versatile Insert System):** Modular hook-and-loop organizational system compatible with Helikon-Tex inserts.
- **Weapon protection:** Features such as padding, reinforced stitching and secure compartments designed to protect firearms during transport.
- **Backpack straps:** Shoulder straps that allow carrying the case on the back like a backpack, improving mobility.
