- Climashield® Apex™ continuous-filament insulation.
- YKK high-durability zippers.
- Chemours™ Teflon® coating for water resistance.

Other Useful Information

The Level 7 jacket is Helikon-Tex's warmest insulated outer layer. Compared to lighter models like the Wolfhound, it uses thicker Climashield® Apex™ insulation for improved thermal retention. Internal pockets help dry wet gloves or equipment by using body heat, while fleece-lined external pockets provide comfort in cold environments. The lightweight ripstop shell resists tearing and is treated with Teflon® for additional weather protection. Despite its high insulation, the jacket remains compressible and lightweight thanks to advanced continuous-filament construction. This makes it suitable for both tactical applications and civilian outdoor use where reliability in deep cold is essential.

Glossary of Terms

- **ECWCS:** Extended Cold Weather Clothing System - a U.S. military-developed multi-layer clothing system for extreme conditions.
- **Climashield® Apex™:** High-performance insulation with excellent warmth-to-weight ratio and moisture resistance.
- **Ripstop nylon:** Reinforced fabric designed to prevent tearing.
- **Teflon® coating:** Chemours polymer treatment for improved water and stain repellency.
- **YKK zippers:** Industry-standard high-quality zippers known for reliability.
