ORDER CONFIRMATION

Measure your hand length from the tip of the middle finger to the base of the thumb, and the palm width at the widest part. Rangeman gloves should fit snugly at first – the leather will “work” and stretch slightly with use.

Size	Finger Length (cm)	Palm Width (cm)
XS	12-12.5	8.5-9
S	12.5-13	9-9.5
M	13-13.5	9.5-10
L	13.5-14	10-10.5
XL	14-14.5	10.5-11
2XL	14.5-15	11-11.5

Sizing guide - [download](#).

Care Instructions

- Hand wash
- Do not bleach
- Do not tumble dry
- Do not dry clean
- Do not iron

FAQ

Do Rangeman gloves work well for shooting and range training? Rangeman gloves are designed for high sensitivity on weapon controls, including precise trigger work.

Should the gloves feel tight when new? Natural leather will stretch slightly with use, improving comfort and grip over time.

Why can the leather look different from pair to pair? Vary depending on the hide. This is normal and not a defect.

Are these gloves suitable for cold weather? Rangeman gloves are designed for range, but they are not insulated winter gloves. For strong frost and winter bushcraft, insulated models are a better option.
