Description

RAT WAIST PACK will fit more items and help to organize them better. It's designed to keep a low profile and blend into the urban jungle.

The RAT WAIST PACK has three pockets. The first one is small, flat, and sewn on the front. The second is larger and contains a zipped mesh pocket and a soft loops panel. The third pocket opens fully and has two side anti-slip pullers, useful while wearing gloves. It also has soft loops on both sides, so it fits our PISTOL HOLDER INSERT. It's compatible with our Versatile Insert System. You can use it as an EDC organizer or a tactical waist pack for your weapons. Two bigger pockets close with two-sided zippers, which allows for quick access to the interior.

The RAT WAIST PACK comes with a rigid, detachable panel with holes and a rubber shock cord. That will work when the equipment must be organized and available immediately (e.g. as a first aid kit).

Rigid panel and soft loops are two hardware organization systems in one product.

Features

- main pocket capacity: 1,8 l
- soft loops panels size: 25 cm x 16,5 cm
- wide, adjustable carrying strap
- rigid organization panel
- low profile look
