Description

Building a shelter in the wild is crucial if you want to survive any harsh weather conditions like heavy rain or driven snow, and our Supertarp Small is the perfect item for impromptu shelter building. This lightweight, polyester square will protect you against snow, rain, and wind, or can be a good base for camouflaging your observation point. Multiple anchor points will let you create various types of shelter with just a piece of paracord and tent stakes. Due to its low weight, it can be folded and carried in your backpack during every trek without adding an additional burden to your load.

Features

- Smaller, compact version of Supertarp
- Coated ripstop polyester construction
- Glued seams
- Nineteen reinforced attachment points
- Cover included
- Designed by Survivaltech.p
