FAQ

What does DIN 13151-K mean? It is a standard defining the size and quality requirements for sterile first aid dressings. The "K" version indicates a smaller compress size.

Yes, this dressing is suitable for inclusion in vehicle first aid kits.

This is to be used for smaller wounds. For larger injuries, a bigger dressing should be used.

Glossary

- **DIN 13151:** Standard for sterile first aid dressings
- **Compress:** Absorbent pad placed directly on a wound
- **Sterile:** Free from microorganisms to reduce infection risk
