The Defender 350 is designed to maximise heat retention while maintaining user comfort. The **thermal hood and shoulder baffle** reduce heat loss, while the **insulated zip baffle** prevents cold spots along the zipper. The **extra wide foot box** allows more natural foot movement, improving overall sleeping comfort compared to standard mummy bags.

Construction and Materials

- **Filling:** 350 g/m² double-layer synthetic insulation
- **Composition:** 40% siliconised hollow fibre, 60% polyester
- **Outer shell:** 210T polyester ripstop (water-repellent)
- **Lining:** 190T pongee for soft feel

The synthetic insulation retains warmth even in damp conditions and dries faster than down, making it suitable for unpredictable weather.
