Type	Self-inflating sleeping mat
Thickness	7.5 cm
R-Value	6.6 (ASTM F3340)
Dimensions	190 × 64 × 7.5 cm
Weight	2 kg
Fabric	190T polyester
Coating	PVC coating with PFC-free surface coating
Included	Stuff sack

FAQ

Is the KipMat warm enough for cold ground? The KipMat has a TM-tested R-Value of 6.6 provides strong insulation against ground heat loss for spring, summer, and autumn conditions.

Does it inflate fully by itself? The KipMat has a self-inflating valve. When the valve is opened, you can add a few breaths to reach your preferred firmness and comfort level.

How do I pack it down quickly? The KipMat has a dual valve to release air rapidly, then roll the mat tightly and store it in the included stuff sack.

Will it slip around in the tent? The KipMat has a one anti-slip print designed to reduce sliding and improve stability during sleep.

Glossary

- **Self-inflating mat:** A sleeping mat that uses open-cell foam to draw in air automatically when the valve is opened.
- **R-Value:** A measure of thermal resistance that indicates how well a mat insulates from cold ground.
- **ASTM F3340:** A standardized test method commonly used to measure sleeping mat insulation performance.
- **PFC-free:** A surface treatment that avoids perfluorinated chemicals, often used to reduce environmental impact.
