FAQ

Is the KipMat warm enough for cold ground? TM-tested R-Value of 6.6 provides strong insulation against ground heat loss for spring, summer, and autumn conditions.

Does it inflate fully by itself? valve is opened. You can add a few breaths to reach your preferred firmness and comfort level.

How do I pack it down quickly? dual valve to release air rapidly, then roll the mat tightly and store it in the included stuff sack.

Will it slip around in the tent? one anti-slip print designed to reduce sliding and improve stability during sleep.
