Description

A small axe for outdoor use in forests and open land. Made from blasted and clear-lacquered ironwork, it is also suitable for work in the garden. The shaft is curved and made from hickory. An edge protector is included. Hultafors hand-forged axes and hatchets may actually differ in appearance from the ones presented in the gallery, which is inseparably connected with this manufacturing process.

Features

- Hand-forged
- Made from Swedish axe steel using traditional methods in use since 1697
- The steel is stuck several times for increased density and durability
- Clear tempered zone within which the axe can be sharpened without detracting the strength of the edge
- The shaft is made from hickory and treated with linseed oil
- Edge protector included, also available for separate purchase.
- Made in Sweden.

Weight [g]

600

Dimensions

37.5 cm / 15 in
