### Description

#### Yubashiri Katana Replica – One Piece Sword

The **Yubashiri Katana Replica** is a decorative sword inspired by the iconic weapon used by **Roronoa Zoro** in the anime and manga series *One Piece*. Designed for collectors and fans, this replica captures the clean and distinctive appearance of the original sword.

#### About Yubashiri

In the *One Piece* storyline, Yubashiri is classified as a **Skillful Grade Sword**, placing it among high-quality blades within the series. It was originally a treasured family heirloom owned by the Loguetown arms dealer **Ipponmatsu**.

After witnessing Zoro's determination and strength of will, Ipponmatsu gifted him the Yubashiri together with the cursed sword Sandai Kitetsu. From that moment, the blade became part of Zoro's well-known **Three-Sword Style**.

Yubashiri accompanied Zoro through several battles until it was ultimately destroyed during the events at **Enies Lobby**, where Marine Captain Shu used his Devil Fruit ability to corrode the blade. Despite its destruction, the sword remained significant to Zoro, who later laid it to rest at the Rumber Pirates' memorial.

#### Design and Appearance

This replica reflects the simple and functional aesthetic of the original Yubashiri, with a design that differs from traditional ornate katanas.

## ORDER CONFIRMATION

---

- **Carbon steel blade** with clean, minimal finish
- **Cross-shaped tsuba** made from gold-anodised aluminium
- **Handle (tsuka)** wrapped with nylon cord
- **Decorative elements** in gold-anodised aluminium
- **Black wooden scabbard (saya)**

The overall design is closer to the appearance of **military-style guntō swords** rather than traditional decorative katanas, giving it a more utilitarian look.

### Specifications

Overall Length	approx. 97 cm
Overall Length (with sheath)	approx. 104 cm
Blade Length	approx. 68 cm
Handle Length	approx. 29 cm
Blade Thickness	approx. 4 mm
Weight (without sheath)	approx. 750 g
Weight (with sheath)	approx. 1013 g
