## Description

The MH4 provides brightness for fishing and hunting - now also available with red-light for better night vision. With just a few easy moves, you can turn it from a head lamp into a multi-purpose lamp. The MH4 draws its power from either the supplied rechargeable battery, which is easily charged by the Magnetic Charge System, or from an AA battery. The Advanced Focus System allows rapid focusing and the stepless swivel mechanism directs your light exactly to where you need it.

- Innovative Mounting System allows easy removal and attachment of the lamp head for maximum flexibility
- Dual Power Source: rechargeable batteries as well as AA batteries can be used
- Magnetic Charge System for easy charging
- Additional red-light LED on the front side for preservation of night vision
- Numerous mounting options due to metal clip on lamp head

### ENDLESS BENEFITS:

- Advanced Focus System: Can focus the light beam as a spot or flood, without losing quality of light
- Rapid Focus: One handed focusing of the light beam
- Smart Light Technology: Offers programmable light functions

- Rechargeable: Save money, batteries and reduce environmental impact
- Magnetic Charge System: Safe reliable charging that is quick and easy to use
- Dual Power Source: Alkaline battery can be substituted when a recharging power source isn't available
- 2-in-1 Headlamp: This headlamp can be easily removed to function as a handheld light that you can clip onto a backpack, jacket, etc.
- Front Switch: A switch on the front of the headlamp for easy control

### CHOOSE YOUR POWER:

- On longer trips when you don't have access to a power source, you can swap out with alkaline batteries
- You can also carry a Ledlenser Flex Powerbank for an extra charge (sold separately)
- The MH4 comes with a charge indicator, battery status indicator and low battery warning so you always know where you stand on power

### FUNCTIONS

#### 1. Light Functions

These settings are a pure, bright delight:

Power - high light output for every situation

Low Power - economical light for long battery life, glare-free reading and working

#### 2. Switches

Turn, press or both - how to switch these Ledlensers on:

Front Switch - a switch on the head of the torch so you can use one hand

#### 3. Special functions

That special something about this Ledlenser:

Transportation Lock - prevents the light from being turned on inadvertently  
Dual Power Source - rechargeable batteries as well as AA batteries can be used.

Magnetic Charge System - for easy charging.

Additional red-light LED - on the front side for preservation of night vision.

#### 4. IP-Class

Safety features of this Ledlenser:

IP54 - Protection against water projected in powerful spray

#### 5. Rechargeable

By using rechargeable batteries, you're not just protecting your wallet, but also the environment. Regular batteries, after all, require up to 500 times more electricity to produce than they can release themselves.

Combined with the energy consumption for transport and storage, the CO<sub>2</sub> emissions are huge.

### Technical information

#### 1. LED

LED Configuration - 1 x Power LED
