Description

The Lindnerhof Carrying Strap Rifle GS113 is a minimalist 2-point rifle strap to securely fix the weapon

Evaluations:

The lightweight Lindnerhof rifle sling GS113 allows a secure fixation of the weapon. The metal center section of the strap is wedged by the sole weight of the attached weapon and only gives way when it is opened. The weapon is fixed at two points with this sling. The metal hooks used here allow for a secure connection to the weapon, which can also be quickly released if necessary. The width of the sling is adjusted by the metal buckle located in the center piece. Pulling on the excess length equipped with adhesive strap tightens the sling. To lengthen the belt, the easy-to-grip strap must be pulled at the buckle. Ladder clips are provided at each end to allow the excess length of the belt to be folded back and held in place. Additional hose covers hold the belt and ladder clips in place. The strap used to shorten the belt is equipped with a Velcro strap to allow the protruding length to be rolled up.
