Description

Luminox Air P-38 Lightning Men's Pilot Watch 9421 (XA.9421) – Swiss Quartz, 200 m

Luminox Air P-38 Lightning 9421 (XA.9421) is a rugged Swiss-made pilot watch built for clear readability and dependable performance in low light and harsh conditions. Inspired by aviation needs, it combines a bold black dial with large Arabic numerals, a 24-hour/GMT rotating bezel, and Luminox Night Vision Tubes that glow for up to **25 years** without external charging. The watch features a **44 mm stainless steel case**, a black leather strap, and a **sapphire crystal with anti-reflective coating** for scratch resistance and better visibility. With **200 m / 20 ATM** water resistance, a screw-down crown and solid caseback, it's suitable for everyday wear, travel, and demanding outdoor use.

Key Features

- Swiss quartz movement for reliable accuracy
- GMT / 24-hour functionality with rotating 24-hour bezel
- Self-powered illumination: Luminox Night Vision Tubes (up to 25 years)
- Sapphire crystal with anti-reflective coating
- 200 m water resistance (20 ATM) with screw-down crown
- Date display for practical everyday use

durability, legibility and long-life glow performance without external charging.

FAQ

Does the watch need to be "charged" to glow? Night Vision Tubes, designed to glow continuously for up to 25 years without external charging.

Is this a GMT watch or a 24-hour watch? The 24-hour bezel and dial layout, allowing easier reading of a second time zone or 24-hour reference.

Is it suitable for swimming or diving? Includes a screw-down crown, making it suitable for swimming and water sports. For professional diving, follow standard precautions (ensure crown is fully secured and seals are maintained).

What packaging is included? Plastic box. Booklet and papers are not included, but seller warranty is provided.

Is the crystal scratch resistant? Crystal with anti-reflective coating, which is highly scratch resistant in everyday use.

Glossary

- **GMT / 24-hour bezel:** A bezel marked 1-24, used to track a second time zone or read time in 24-hour format
- **Sapphire crystal:** A very hard, scratch-resistant watch glass material
- **Screw-down crown:** A crown that seals by screwing into the case, improving water resistance
- **Night Vision Tubes:** Self-powered illumination elements designed to glow continuously without external charging
- **20 ATM / 200 m:** Water resistance class indicating suitability for swimming and many water activities (not a depth guarantee)
